**DETAILED ACTION**

***Response to Amendment***

The Amendment, filed on March 31, 2004, has been entered and acknowledged by the Examiner.

Claims 1, 3, 6, 7, 9, 10 and 12-18 are pending in the instant application.

***Allowable Subject Matter***

Claims 1, 3, 6, 7, 9, 10 and 12-18 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a color filter layer for selectively transmitting only a predetermined-wavelength visible light provided between the fluorescent layer and the reflection layer, wherein the color filter layer comprises an inorganic pigment having an average particle diameter of 10-200 nm.

Regarding claims 3, 6, 7 and 9, claims 3, 6, 7 and 9 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 10, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 10, and specifically comprising the limitation of a fluorescent layer made of a fluorescent material covering the white dielectric layer, the partitions, and the protection layer of the front-side glass substrate, wherein the fluorescent material comprises phosphor mono-crystal particles having a particle diameter of 10 or more nanometers and less than 25 nanometers and wherein the fluorescent layer is a film having a thickness of 0.05 or more micrometers and less than 0.3 micrometers.

Art Unit: 2879

Regarding claim 12, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 12, and specifically comprising the limitation of a color filter layer for selectively transmitting only a predetermined-wavelength visible light provided between the fluorescent layer and the reflection layer, wherein the color filter layer has a thickness of 0.1-5  $\mu\text{m}$ .

Regarding claims 13-18, claims 13-18 are allowable for the reasons given in claim 12 because of their dependency status from claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
